

# Permanent Supportive Housing

## ANNUAL FUNDRAISING GOAL

\$150,000 annually

## OVERVIEW

Permanent supportive housing is an evidence-based housing intervention that combines affordable housing assistance with wrap-around supportive services for people experiencing homelessness.

Studies have shown that permanent supportive housing not only resolves homelessness and increases housing stability, but also improves health and lowers public costs by reducing the use of publicly-funded crisis services, including shelters, hospitals and psychiatric centers.

Supportive housing links decent, safe, affordable, community-based housing with flexible, voluntary support services designed to help the individual or family stay housed and live a more productive life in the community.
